A message from our President...

Mission of Hope House (MOHH), as the only shelter in Waupaca county for homeless families, plays a crucial role in supporting the most vulnerable segment of our society. Many people have visited MOHH and have seen the effort placed in providing a safe environment, free from drugs and alcohol, where families can learn to be self-sufficient through classes and counseling. What many people do not realize is the efforts made by MOHH staff to prevent families from needing to shelter at our facility. We strive to connect families with available resources, other non-profits as well as state and county agencies, to keep them in their homes. The Board of Directors is dedicated to performing the necessary functions of fund raising and organizational support to allow the MOHH staff to focus on the Mission: To promote self-sufficiency and improve the lives of families affected by poverty and homelessness. In order for us to succeed, as the saying goes, “it takes a village”. We need the help of the communities we serve. This is not just New London, we have assisted clients from all of our neighboring counties and as far away as Milwaukee. We need support, not only financially, but, with volunteers and donations of items to our thrift store, The Bridge. I encourage all who are interested to contact us via our website.
